Board Resolution on Racial Equity

A Year in Review and Looking Ahead
This report highlights our progress on commitments outlined in our **Board Resolution** on Racial Equity. The resolution was adopted in June 2020, the year of the Double Pandemic – Racism and its impact on the health of communities of color and the COVID 19 pandemic -- which fully exposed the immense inequities that exists in our **society**. The resolution re-affirmed our organizational commitment to our foundational duty as a community health center.

Our work is rooted in the community **health center movement**, begun over 50 years ago. Standing on that foundation, Lowell Community Health Center has been committed to assuring the equitable delivery of services since we were established in 1970. Early on, we adapted our practices to be **culturally and linguistically appropriate in pursuit of health equity for the Greater Lowell community**. This work has long been embedded throughout the organization. Our work has been recognized by the federal Office of Minority Health as a best practice, **becoming a model** for the National Cultural Linguistic Services Standards in Health Care.

In 2016, youth in the community started calling on leaders and organizations to take actions towards Racial Justice. In 2018 at Lowell CHC’s **Teen BLOCK** annual Dance 4 Peace event, youth responded with a public **Call to Action** for Racial Equity. This led to the creation of a new **RevoYOUTHtion** initiative focused on engaging our community in meaningful conversations on Racial Equity.

The combination of these efforts, combined with community momentum throughout the pandemic, brought the Health Center back to our Civil Rights roots, as we closely examined systems and organizational practices through a racial equity lens. We are redoubling our commitment to advancing racial equity while leveraging our extensive expertise in and commitment to cultural proficiency – a commitment reflected in our mission and our current Strategic Plan.
“Throughout this pandemic, we have found ourselves—time and time again—advocating for basic equitable access to testing, to vaccines, to care. We must seize this moment to advance racial equity and to permanently change systemic issues that arise.”

Sue Levine @ CDC COVID-19 Vaccine Forum 02/24/2021
Our Mission: Lowell Community Health Center’s mission is to provide caring, quality and culturally competent health services to the people of Greater Lowell, regardless of their financial status; to reduce health disparities and enhance the health of the Greater Lowell community; and to empower each individual to maximize their overall well being.

• Guiding Principles
• Culture of Health
• Equitable Opportunities
• Person Centered Care

BOARD RESOLUTION

We, the Lowell Community Health Center Board of Directors, hereby recognize on this date, June 17, 2020, racism as a public health crisis here in our community of Greater Lowell.

It is hereby resolved that the Lowell Community Health Center is committed to combating racism through:

• Data equity, transparency & accountability that expands our understanding of population health, inclusive of race, ethnicity and language.
• Cultural competency and anti-racism education and training.
• Equitable and inclusive funding, fundraising & purchasing decisions.
• Diverse racial representation at all levels of Lowell CHC governance, leadership and workforce.
• Equitable organizational policies, procedures and practices.
  • Community and patient involvement in service and program design.
  • Advocacy for policies that improve the health of racial and ethnic minorities.
RESOLUTION’S 7 MAIN AREAS

- **Pursued funding for Center of Excellence via Congressional Directed Funding and State Legislation**.
- **Advocated for systemic changes and adoption of Racial Equity Frameworks in Policy Development i.e. (Joint Committee on Racial Equity, Civil Rights, and Inclusion.)**.
“After all the stress and anger of the events in the Capitol last week, listening to the history was sort of a release. You would think it would be more frustrating to hear that we are essentially repeating events and mistakes of the past, but instead it felt more validating and inspiring to keep pushing for change.

Knowledge is power!"

-Lowell CHC Employee
Strategic Plan Growth and Intentional Focus

- Refine Care Delivery Model:
  - Codify care team ratios for telehealth and onsite care
  - Launch provider-driven panel management practices
  - Develop sustainable referral practice
